

# Wildlife Watcher User Guide

---

From [wildlife.ai](https://wildlife.ai)

For [Wildlife Watcher](#) project

## Image processing

---

Regarding image processing, we suggest two tools: Wildlife Insights and AddaxAI regarding you usage.

### Wildlife Insights

Wildlife Insights image processing tool is recommended for simple image processing.

- Users can access all required templates and documentation via the SD card, once deployment is ended
- User is required to:
  - Create an account with Wildlife Insights
  - Transfer the SD card from the camera to their laptop/computer
  - Upload the data template into Wildlife insights
  - Transfer/upload pictures into Wildlife Insights
  - Dev's guide to be used here

Wildlife Insights user guide.

### AddaxAI
